## DETAILED ACTION

### *Examiner's Amendment/Comment*

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Examiner's Amendment/Comment".

An examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 C.F.R. 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the Issue Fee.

Authorization for this Examiner's Amendment was given in a telephone interview with Adam C. Volentine (Reg. #33,289) on March 27, 2006.

In regards to claim 6 and 12, please change "... wherein m is a natural number *grater* than n" to "... wherein m is a natural number greater than n "(see end of claim).

In regards to claim 7 and 8, please change "... according to claim 5" to "... according to claim 6" (see first line of claims).

### *Examiner's Statement of Reason for Allowance*

Claims 1-17 are allowable over the prior art of records.

The following is an Examiner's statement of reasons for the indication of allowable subject matter: Claims 1-17 are allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior arts.

The reason for allowance for claims 1 is the inclusion of a test mode control circuit invalidating an operation of the redundancy repair control circuit in conjunction with the rest of the limitation set forth in the claim.

The reason for allowance for claims 6 and 12 is the inclusion of a test mode control circuit invalidating an operation of the redundant address determining circuit in conjunction with the rest of the limitation set forth in the claim.

Art Unit: 2113

The remaining claims, not specifically mentioned, are allowed because they are dependent upon one of the claim mentioned above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### *Conclusion*

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO 892.
